## GROUND CARE SPIKED TO PERFECTION!

One of the great things about being a specialist groundcare dealer is that business takes you to some of the most beautiful golf courses in the country, and in that respect Donnington Valley Golf Club is certainly no exception.

This 18-hole parkland course is set in rolling Berkshire countryside near Newbury and offers stunning vistas in every direction. At a challenging 6,353 yards, par 71 from the back tees, it's a great test of golfing skills. Although some of the holes are quite forgiving, the closing four holes are regarded as one of the toughest finishes in the country, with water featuring prominently on 15th, 16th and 17th holes.

It would be easy to take the velvety turf on the greens and the immaculate fairways for granted, but

of course they are the result of a lot of hard work by Course Manager David Lyons and his team.

"Drainage is a key aspect at Donnington due to the undulating nature of the ground and the fact that the course is centred around a valley," says David. "For good grass health the ground also needs to be aerated – the roots actually develop in the air pockets rather than the soil itself."

When David was appointed Course Manager at Donnington in early 2015 a 15-year-old Wiedenmann

**BADMINTON 2016**

Staff on the T H WHITE stand at the Badminton Horse Trials 2016 enjoyed five glorious days of sunshine.

An all-new layout this year meant more products could be shown, with improved access for the public. For the first time on display with T H WHITE was the new Honda TRX500FM2 Foreman with power steering, the new Logic TRM 1.5m trailed rotary mower, the Kawasaki Mule Pro DX UTV and a selection of working robotic mowers.

Enquires were brisk for paddock maintenance equipment – an indication they needed some TLC after such a long wet winter and orders were taken for Logic ATV rollers and harrows in particular.

T H WHITE has a long association with Badminton Horse Trials and proudly supports the event with machinery on loan each year. We are already looking forward to 2017 with further plans for our stand!

**SPIKED TO PERFECTION!** Continued from front page

Course Manager David Lyons (left), T H WHITE's Matt Textor and Director of Golf Peter Smith with Donnington's listed Victorian clubhouse in the background.

aerator was in use. "It was a great machine but it was starting to show its age and it couldn't work as deep and fast as newer designs."

Director of Golf Peter Smith takes up the story: "David suggested that we should consider purchasing a new aerator. We knew we would have to replace the existing equipment before long and as he liked the Wiedenmann machines we asked T H WHITE to show us the latest models."

T H WHITE sales representative Matt Textor arranged a demonstration of the latest Wiedenmann Terra Spike GXi8 aerator which immediately impressed the Donnington team. "Not only will it work down to depths of 250mm, but it will also core well and it's 40cm wider than earlier machines," said David. "That meant we would be able to cover more ground, faster. Operator comfort is also greatly improved by a completely new anti-vibration system."

The deal was done and Donnington Valley took delivery of a new Wiedenmann Terra Spike GXi8 at the beginning of March. David Lyons was delighted: "To be honest, I wish we'd had it sooner – ideally before the winter. We used it flat-out every day through March and most of April. Being belt-driven it's quiet and fast, enabling us to get about 20% more done every time we go out. We can now get all the greens aerated in a single working day which is a big time-saving.

"We have a full set of tines – from 8mm to 19mm, solid and hollow – which means we can use the Terra Spike – on all parts of the course. It's a true all-rounder. As far as maintenance is concerned, there almost isn't any to do – eight grease nipples and that's about it!"

After only a couple of months, the results of using the GXi8 are noticeable. "The most important thing," says Peter Smith "is that the players have noticed the improvement and we have had many compliments."

As well as offering memberships, Donnington Valley Golf Course is available for visitors to play. For details see [www.donningtonvalley.co.uk/golf.asp](http://www.donningtonvalley.co.uk/golf.asp)

To learn more about the latest Wiedenmann Terra Spike aerators and the benefits they can bring to your managed turf, call your local Groundcare representative.

**PROJECTS**

**STORAGE UPGRADE AT FORFARMERS**

Located near Royal Portbury Dock on the Severn Estuary is the ForFarmers Animal Feed Compounding Mill.

Early in 2016 the T H WHITE Projects Division was awarded a contract to upgrade some of the silo storage on site. This included the refurbishment of an existing silo, removal of another, as well as the installation of a new steel silo with associated handling equipment and controls.

The old arrangement on site had the two original hopper-bottom corrugated silos located alongside each other as shown on the photograph, so with one unit dismantled and removed from its base there was a sufficient area available to undertake the project on the existing foundations.

Alongside the refurbished silo a new and larger capacity vessel was carefully planned into the solution. The additional storage involved a 348-tonne capacity hopper bottom silo supported on some heavy duty steelwork and hip ring, with a cylinder tank diameter of 7m which, when erected, would leave the new silo standing some 20m high

alongside the existing version.

As the storage silo holds meals which have restrictive material flow characteristic, a 60 degree cone with a vibratory bin activator was included to ensure effective discharge of the material within the smooth-walled steel

plate silo. Filling and discharge from the silo is rated at 50 tonnes per hour and has been connected to the existing production facility using a series of new screw conveyors.

After progressing through the design, procurement and manufacturing stages of the contract, installation and commissioning of the new system was successfully completed, thus enabling handover to the customer in May.

T H WHITE Projects specialises in cereal processing and grain storage solutions, from smaller farm installations to large commercial bulk grain facilities throughout the UK, taking each project from conception to completion.

If you have a scheme or requirement you would like to talk about, please contact us on 01380 723040.

**ENERGY, FIRE & SECURITY**

**SUMMER SERVICE FOR OIL AND BIOMASS BOILERS**

Summer is the ideal time to get your boiler serviced! Large capacity boilers may need to be turned off more than 24 hours prior to the service to allow them to cool down, so it makes sense to do this when the heating doesn't need to be on. Many faults can also develop with inactivity of pumps and valves over the summer months and just when you really need the heat on, the system fails to deliver.

T H WHITE Energy has installed over 40 biomass boilers and district heating systems over the last four years, and has

recently added OFTEC registration to enable us to service and install oil boilers as well. Many customers, including Blenheim Palace, also benefit from a T H WHITE boiler service package

designed to save you money with discounts and protect your boiler but importantly ensure you remain compliant for the renewable heat incentive.

If you are considering installing a heating system, or have one that needs looking after, then call the friendly and experienced team at T H WHITE Energy on 01380 723040.

# JEEP GRAND CHEROKEE AMONG 'TOP 10 BEST CARS TO OWN'

May was a fantastic month for Jeep. After the brand was named the UK's 'Most Improved Brand', the acclaimed Jeep Grand Cherokee has been moving up the rankings and is now 9th out of the 10 best cars to own.

According to Auto Express 2016 Driver Power Survey, the Jeep Grand Cherokee has beaten more than 150 vehicles to be among the top 10 in the UK. It is another year and another recognition for the model, as Jeep Grand Cherokee has received more awards over its lifetime than any other SUV.

Drivers and aficionados voted for their most preferred cars based on practicality,

comfort, technology and ease of navigation, and the Jeep Grand Cherokee shone in all these areas. With the Grand Cherokee's impressive array of safety features and comfort/strength ratio, it can't have been a tough choice to make.

Discover the award-winning Jeep Grand Cherokee at T H WHITE with this quarter's competitive offers. The Grand Cherokee 3.0 CRD Summit 5dr Auto could be yours now for £51,995 on the road price or £569 a month for 48 months with £3,000 Jeep Deposit Contribution.

# FIAT DOBLO 'BEST SMALL VAN'

April was another great month for Fiat Professional. The Fiat Doblo Cargo, one of the brand's bestsellers, scooped two of the most prestigious awards in the industry; 'Best Small Van of the Year' at the Trade Van Driver Awards, and 'Best Small Van of the Year' at the Van Fleet World Honours.

Trade Van Driver, the UK's leading Van magazine, prides itself on offering an objective and respected opinion within the industry, which makes its awards a true testament of quality and reliability. Its readers and the judges of the awards have praised the Doblo's functional approach and its practicality as a small commercial vehicle.

It's not the first Van Fleet World Honours award for the Cargo either; it won the Best Small Van award in 2013. A true champion in its category, the Cargo won over the judges at this year's ceremony with its combination of engine choice, payload and load volumes, with no less than four body sizes available and a dropside pick-up which, according to the experts, will appeal to the widest possible audience.

With T H WHITE's bespoke offers, you can own a Doblo from £17,853 on the road or lease it over 47 months for £954 initial rental and £184 a month with Business Contract Hire\*.

To find out more, please visit [www.thwhitevans.co.uk](http://www.thwhitevans.co.uk).

\* Dobló Cargo 1.3 90 MultiJet II rental shown based on a non-maintained contract hire payment profile of 6 rentals in advance followed by 47 monthly rentals. Rentals shown exclude extra cost options, VAT and maintenance. Rentals are subject to VAT at statutory rate. Based on 10,000 miles per annum. Excess mileage charges apply. Vehicles must be registered with Fiat Financial Services before 30th June 2016. Offer subject to status. A guarantee or indemnity may be required. Offer correct at time of going to press (08/04/16) and may be varied or withdrawn at any time. Subject to availability. Fiat Financial Services, PO Box 4590, Slough, Berkshire, SL1 0WU.

## ENERGY, FIRE & SECURITY MAINTENANCE PLANS TO SAVE YOU MONEY

As an NSI NACOSS Gold accredited provider of Fire and Security plans we can offer you total peace of mind and ensure you have a working, compliant system that meets your insurer's requirements.

To help you manage this, we advise customers to sign up for a service plan. It saves you money and, with our new direct debit facility, it's even easier for you manage, letting us get on with the responsibility of maintaining your system for you so you can get on with running your business.

Your fire safety and security solution plays a big part in protecting your business and employees. So it makes sense to choose qualified experts to ensure it's in perfect working order. To find out more about how a service contract from T H WHITE will safeguard your company, call 01380 726656.

### Standard Preventative Maintenance Package

- Scheduled visit from our engineer
- Check standby battery
- Check bell operation
- Clean sensors
- Test all communication devices
- Certify for insurance
- One year

### Silver - 2 Year Contract As Standard plus...

- Up to 10% off all reactive parts and labour

### Gold - 5 Year Contact

- Up to 10% off all reactive parts and labour
- Up to 10% off service charge

### Monitoring and Callout Charges

T H WHITE offers a 24 hours callout and monitoring service as standard planned maintenance packages. With a Silver or Gold contract you will receive discount reactive callout charges to help manage any problems which occur. Monitoring charges are covered under a separate contract by our regular partner SMS, which is available to customers who want additional protection.

#### MACHINERY IMPORTS

### FIRST FERRIS AND WRIGHT UK DEALER CONFERENCE

The new T H WHITE Machinery Imports Division held its first UK dealer conference at Bowood Golf and Country Club on the 27 and 28 April. Sixteen professional turf machinery dealers were represented from across the UK, all of whom are established Ferris and Wright machinery dealers.

Commenting on the event, Tim Lane – divisional director for Machinery Imports – said: “The event was a huge success and the feedback we have had from our dealer colleagues has been extremely positive. The T H WHITE Group created this new strategic business bring further diversity and expand the Group offering;

the level of support so far has been excellent.

“Ferris and Wright are both strong brands and, as professional groundcare machinery specialists, we aim to support and enable our dealers to strengthen their businesses further through selling Ferris and Wright products. Our relationship is firmly with the dealer network and this conference was an important first step in building for the future.”

Over the course of the conference the T H WHITE Group managing director Alex Scott shared his thoughts and vision around distribution. Presentations were

given on the T H WHITE Group, and new products were reviewed by Tony Doe from Briggs and Stratton and Clive Carter from T H WHITE. In the grounds of the golf course new products were revealed, including the IS2100 with the latest electronic fuel injection engine which offers a 20 per cent overall saving in fuel compared to the equivalent carburettor engine.

All delegates attended an evening meal where there was much further discussion of the industry and sales opportunities over by some local ale whilst relaxing in the surrounds of the beautiful hotel and the Bowood estate.

A LOLER test can cost as little as £100\* and will provide you with real peace of mind.

\*Mileage and VAT not included

#### Do you need a LOLER test?

The answer is **YES** if you own or operate a fork lift truck, telescopic handler, or a tractor fitted with a loader.

You are required by law to ensure that the machine holds a report of Thorough Examination on an annual basis. This requirement of a Thorough Examination is embedded in Health & Safety legislation; Lifting components are covered by the Lifting Operations and Lifting equipment Regulations 1998.

We offer regular maintenance, examination and testing, throughout Gloucestershire, Avon, Wiltshire and Somerset to meet LOLER Regulations.

### STAY COOL WHEN THE HEAT RISES

As we prepare (hopefully) for a long, hot summer and a rich harvest, you'll want to be sure that no matter how much the temperature rises you stay cool in your cab. Now is the time to get your air conditioning serviced – which T H WHITE will do for **just £98** until the end of June!

As part of our special £98 service\* we:

- Recover the system refrigerant
- Check and clean the condenser
- Clean and recharge the system with refrigerant gas and oil
- Add ultra violet dye to the system to check for leaks
- Test the operation and efficiency

To book your machine in for this outstanding value service, please contact your T H WHITE Agricultural branch.

# 3 YEARS INTEREST FREE ON ALL NEW STOCKED MANITOU MLT MACHINES\*

## A FLEXIBLE PAYMENT PLAN MONTHLY OR ANNUAL OPTIONS ON ANY STOCK UNIT
