SMART MOVE AT FROME

By the time you read this issue of White's World our Agricultural branch in Frome will have moved to modern, spacious premises at Marston Park.

In a mammoth moving operation, the entire T H WHITE Frome branch was transferred from the life-expired premises at Vallis Road on the north-western edge of the town, reopening at Marston Park on the south-west side on 27 November. The new site is easy to find in Bulls Quarries Road, just off the A361 Frome bypass. To locate us with satellite

navigation, the postcode is BA11 5BS.

The large Marston Park site was already home to Marston Foods – makers of gourmet desserts – who will continue to operate there. The new site will accommodate all the existing Frome staff who will continue to sell and support the Agricultural and Dairy machinery, parts and sundries that were sold at Vallis Road. We look forward to welcoming you to Marston Park and providing you with the continued high level of service you have come to expect from T H WHITE.

Top: In early November the exterior of the new T H WHITE Frome branch was nearing completion with surfaces being laid.

Below left: The massive new workshop space provides an outstanding environment for servicing tractors and machinery.

Below right: The reception area will house the Agricultural Store.

Season's greetings to all our customers and friends

HUMANE, NON-TOXIC TRAPS

Whether you are an agricultural professional or simply a keen gardener, the problem of pests is always present. Unwanted pests not only cause millions of pounds worth of damage to buildings, crops and property each year, but they also threaten native species.

Dealing with pests is always a sensitive subject – poisoning can have unpleasant side effects and is widely regarded as inhumane. Now, however, Berkshire-based Goodnature Traps UK is distributing a range of New Zealand designed and made non-toxic automatic traps that humanely and efficiently dispatch target species.

The first product, now available at T H WHITE Country Stores, is the Goodnature A24 rat trap, designed to deal with rats, small rodents and stoats. The rat is attracted by the scent of a bait inside the trap and when it enters the cowl of the unit a bolt powered by a CO2 canister delivers a powerful blow that dispatches pests humanely and efficiently every time. The trap then

resets itself automatically, ready to operate again.

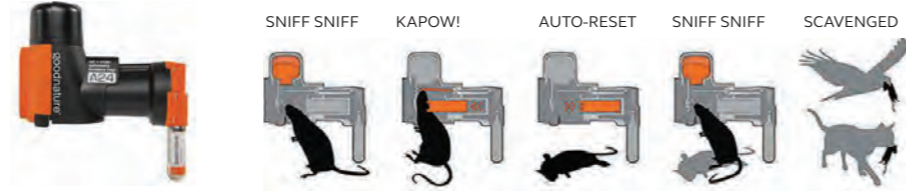

The dead pest falls from the trap and can be removed hygienically by the farmer or gardener, but if, for example, it is taken by a bird of prey or a cat, then no poison will enter the animal food chain.

Targeted, efficient and humane, the A24 trap has been developed and tested in harsh outdoor environments, but is just as effective in your garden or loft as it is in rural or urban environments, allowing anyone to carry out effective pest control. Up to 24 pests can be dealt with per CO2 canister.

The A24 is certified for use in England under the Spring Traps Approval (England) Order. Approval for use in Scotland and Wales is pending.

A larger trap for grey squirrels has also been developed and is expected to be approved in the spring update of the Spring Trap Approval Order (England), with availability from June.

You can buy the A24 trap kit now from the T H WHITE Country Stores in Marlborough and Knockdown at £126.

MACHINERY IMPORTS
SHOWCASING NEW MACHINERY WITH AWARD-WINNING STAND AT SALTEX

T H WHITE Machinery Imports attended Saltex again this year, held at Birmingham NEC on 1-2 November.

Hailed by the show's organisers as the best-ever SALTEX event, the two day exhibition was attended by over 300 exhibitors, including two stands from T H WHITE for our Machinery Imports brands Ferris, Wright, Spider and Jensen.

Taking two stands spread across 126 square metres, visitors to T H WHITE were able to see a range of machinery from the four brands including the all-new 400s light commercial mower from Ferris with its revolutionary 4-way deck, as well as a line-up of versatile and comfortable stand-on mowers from Wright.

In the Spider slope mowers area visitors were able to get a first look at the new concept 3Rider mower, which combines both ride-on and remote-controlled mowing for flat and uneven, steep or dangerous ground, as well as the 2SGS, an adaptation of the popular ILD02 slope mower which has been developed to serve the demand for a go-anywhere mower that can mow under and around solar PV panels.

On the dedicated Jensen stand, guests were invited to see the latest additions to the Machinery Imports suite, including the A530L petrol chipper, a great alternative to diesel machines which at less than 750kg can be towed without a trailer license. The A540 Spider was very popular, with customers and dealers alike both interested in this heavy duty chipper which features independent adjustable tracks giving exceptional

ground clearance and the ability to work effortlessly on slopes and in hard-to-reach areas.

During the show the team was delighted to receive the SALTEX award for the Best Stand in the 'Open Space 60m2+ category', and proudly displayed the award certificate for the duration

of the event. Divisional Director, Tim Lane, was thrilled with the success of the event commenting: "It's fantastic to be at Saltex hosting two stands and highlighting to the industry the exceptional range of machinery that we distribute. We are very proud of how the Machinery Imports division has developed over the past two years, and we are looking forward to even more success with all our brands in 2018."

The team was also pleased to meet existing and new customers and dealers, and are now working with all interested parties to arrange demonstrations of the machines to show off exactly what they can do out in the field.

PROJECTS

AGRITECHNICA 2017

Members of the T H WHITE Projects Division visited the Agritechnica Exhibition & Conference which was held in Hanover, Germany over a seven day period between 12-18 November 2017. The show attracted some 450,000 visitors to the 19 country pavilions on site where an astonishing 2,900 exhibitors were present across 23 halls. The event provided the ideal stage to review the future of crop production, high calibre manufacturers and service providers.

With industry applications and project solutions in mind the team was able to meet up with an international array of varying organisations inclusive of some UK customers and suppliers at the show.

Next on the calendar for the Projects team is the **LAMMA event in Peterborough, scheduled for 17-18 January 2018**. You will be able to find them on Stand 322 in Hall 3.

MOTOR GROUP

FIVE STAR EURO NCAP RATING

The all-new Jeep Compass – soon to be on sale at T H WHITE's Fiat Group Brand Centre in Swindon – has attained the maximum five-star EuroNCAP safety rating.

The Compass scored positive ratings in all categories – including adult protection, child protection, pedestrian protection and driving assistance safety systems. The result is even more significant considering that it meets the demanding 2017 EuroNCAP standards. The new compact SUV combines the brand's legendary off-road capability with user-friendly technology and a full array of driving assistance systems – all wrapped up in a distinctive modern design.

Making a major contribution to the Jeep Compass's maximum five-star rating is the effectiveness of its 'safety cage' – 65 per cent of which is made from high-strength steel ensuring exceptional torsional strength and enhanced occupant protection. More than 70 active and passive safety systems also set the new standard in the Jeep range.

Safety systems fitted as standard on the new Compass range include active driving assistance systems such as Forward Collision Warning-Plus and Lane Sense Departure Warning-Plus, both of which combine radar and video camera technology to recognise potential collisions and prevent impact by alerting the driver with audible, visual and tactile warnings.

AGRICULTURE

ATVs FOR SUB-SAHARAN AFRICA

T H WHITE Toddington has supplied of a number of Honda TRX250 and 420 Fourtrax ATVs for Warwickshire-based growers Sandfields Farms Ltd who will be shipping them to West Africa Farms – their business in the sub-Saharan desert of Senegal.

In the picture is a Honda TRX250 Fourtrax and Logic trailer, specially prepared for use as a medical aid unit. These have to operate in extremely hot and demanding sandy conditions where they have proved reliable and invaluable for emergency response. We would like to point out that the choice of footwear was only for the purpose of this static photograph, and protective ankle boots, eye protection and gloves are recommended for ATV use!

KEEPING YOU SAFE & SECURE

Access Control systems

From simple pinpad and swipe units to fingerprint biometric entry modules we can control access to any size of property, including those with restricted areas or secure rooms.

Intruder Alarms

From bells only to fully policed, monitored systems. We can install the right system tailored to your or your insurance company's requirements. Already have a system? T H WHITE can carry out your annual tests, with a friendly face and a service you can trust.

Fire Alarms

Business owner? Landlord? Health and safety manager? Our surveyors are fully accredited in system design and can work with you on any project to make sure you comply with the latest regulations.

Fire Extinguishers

We offer supply and maintenance of fire fighting equipment, together with honest and accurate advice to keep you safe and compliant with the latest regulations. We also offer safety signage and accessories such as cabinets, vehicle boxes and escape ladders.

CCTV & IP Cameras

For security, health and safety or machinery monitoring, we have the system for you. From fully HD conversions of existing systems to IP set ups we can future proof your CCTV installation. Coupled with our smart phone technologies you can monitor your system from anywhere in the world.

Electric Gates & Barriers

From bespoke domestic style electrical gates to commercial barriers and bollards. Physical security combined with security systems enhance the protection of sites and stop would-be intruders in their tracks.

CONSTRUCTION IN PROFILE

The T H WHITE Construction Division has in some ways been the 'quiet partner' of the Group, but for more than 35 years it has been supplying construction businesses across our region with some leading names in construction equipment.

These days the line-up includes Manitou, Mecacac, Gehl, New Holland and, most recently, Probst - all premium brands which have been selected for innovation, design and reliability.

Our specialist construction team is based at Marlborough, headed by General Manager Adrian Lovegrove. Reporting to him are salesmen Pat Yeates and Steve Clucas-Tomlinson - but they are not just sales people, they know the construction industry inside out and will assist customers through the whole process, from an initial consultation to understand their needs, then sourcing and supplying the right kit for the job at the right price. After that they will help to keep you in business with first class maintenance, service and support.

T H WHITE Construction helps businesses in all relevant sectors from builders to waste transfer stations. If you have a requirement for new or used construction equipment call Pat Yeates direct on 07780 225104 (areas south of the M4), or Steve Clucas-Tomlinson (north of the M4) on 07780 593339.

Pat Yeates has been in construction sales for almost 10 years including experience with Finning Caterpillar, Aiscough Crane Hire and Case Heavy-Line with CBL.

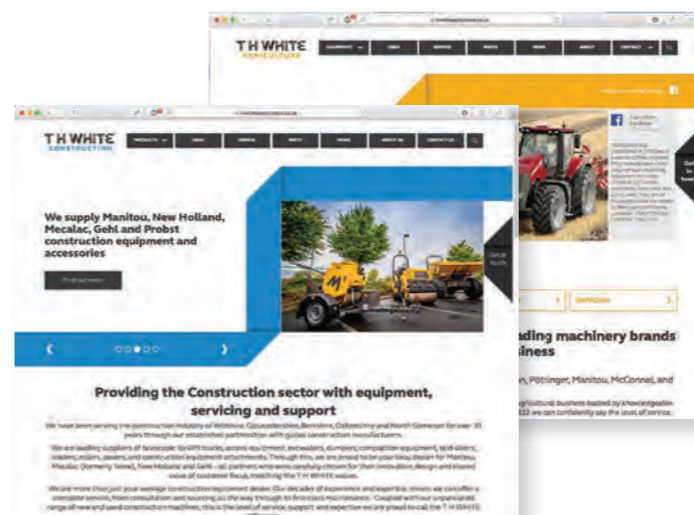

"Customers are very focussed on quality these days," he says, "but value is increasingly important too. At T H WHITE we aim to deliver both. For many customers the service and back-up that we offer make us first choice for all their mini excavators, telehandlers, skid steer loaders and backhoes."

Steve Clucas-Tomlinson went into the construction business straight from school and has gained extensive experience in sales and hire of excavators, dumpers, rollers and lifting gear.

After just over a year at T H WHITE he says: "It's great to work for a local, family-run company which delivers the service of a national company. New products, such as a cabbled dumper due early next year, together with expanding sales areas will bring plenty of new opportunities!"

NEW WEBSITES FOR AGRICULTURE AND CONSTRUCTION

The renewal of T H WHITE's online presence has been boosted in the last month by the launch of new, dedicated sites for the Agriculture and Construction Divisions.

Following the format of new sites across the Group that have progressively been going live, these new additions feature easy-to-navigate overviews of the Divisions as well as details of all the brands, products and services offered. No matter what interests you, the sites make it easy to contact the right people. They can be viewed at www.thwhiteagriculture.co.uk and www.thwhiteconstruction.co.uk
