LORRY CRANES

BIG 'HIGH FIVE' FOR EPSILON CLASSIC

T H WHITE Lorry Cranes, the UK national distributor for Palfinger Epsilon, has introduced a significantly enhanced, free 5-year warranty package for Epsilon Classic cranes.

The new package offers 24-months' free parts and labour cover for all components – an increase from the original 12-month warranty package. Additionally, all structural and load-bearing components will benefit from an extra three years' free cover for parts. The new 5-year warranty applies to all new orders placed with T H WHITE for Palfinger Epsilon M125LC68 or M125LC82 Classic cranes.

As well as the new 5-year warranty package T H WHITE now also offers customers the opportunity to receive the first year of a Classic Crane Service Plan free of charge

EPSILON CRANES

when signing up for a 5-year Plan with their new crane.

T H WHITE's Lorry Cranes Service department is recognised across the industry as one of the leading providers of service, repairs and parts

for lorry loader cranes, offering outstanding aftercare and compliance support from a nationwide team.

Mark Rigby, director of the T H WHITE Lorry Cranes Division, comments: "The M Series Classic Epsilon has become a product of choice in the tipper

grab market, and this enhanced product offer demonstrates a real belief in the strength and integrity of the product in a very tough market application, to give customers even more confidence to continue buying Epsilon cranes now and in the future."

To find out more please visit www.thwhitelorrycranes.co.uk/epsilon-high-five, or phone T H WHITE Lorry Cranes on 01380 722381.

GROUND CARE

MACHINERY IMPORTS

STRONG LINE-UP TO HELP ESTATE MANAGERS TACKLE GRASS MAINTENANCE

With the mowing season upon us, T H WHITE's Groundcare and Machinery Imports Divisions are ready with all the kit to help estate managers tackle the maintenance of lawn, grass or parkland in the most efficient and cost-effective ways.

It's not just mowers either – we can supply tractors, spreaders, aerators, rollers, hedge cutters, chippers, shredders, ATVs and UTVs, among many other things. It's a complete groundcare armoury backed up by top quality service and parts to keep you on top of estate management right through the season.

The line-up features some great new products too. One of the most useful recent introductions is the Spider Mini slope mower, a scaled down version of the big remote controlled Spider models with remarkable capabilities for mowing on difficult terrain and slopes up to 30 degrees.

Above and left: The Spider Mini remote controlled slope mower has remarkable climbing abilities and is also a superb solution for general remote controlled mowing around estates.

Left: The new Ferris 400S 48in triple deck ride-on mower is an efficient and economic solution.

Right: Logic mowers and toppers are perfect for fast, general use on many types of grass.

Below: Wright Stander mowers offer ease of use in awkward locations.

many features usually only found on larger or more expensive tractors.

Also from Iseki come the SXG series of compact ride-on mowers with high levels of manoeuvrability, reliability and integrated grass collection.

design offer the versatility required for challenging terrain or tight and awkward locations.

In terms of compact tractors suitable for estate work it would be hard to beat the new Iseki TLE 3400 premium economy model. With a 38hp engine, 3-range hydrostatic drive, spool valve, PTO, drawbar and ROPS it offers

Iseki TLE 3400 compact premium economy tractor

The Ferris IS*600Z features independent suspension and zero turn capability.

Iseki SXG216 compact rotary mower collector. Wessex International produce trailed mowers that can be used with tractors or ATVs.

If you prefer to use a trailed mower with an existing tractor or ATV we can supply an extensive choice from UK manufacturer Wessex International, or flail mower/toppers from the Logic range.

Of course, there may be times when you only need a machine for a particular task or a limited period, in which case hiring could be an economic option – see www.thwhitegroundcare.co.uk for details.

All users have different requirements, but whatever challenges you face we can ensure you are equipped with the right kit for the job. To find out how we can help you or to arrange a demo of any items, just contact any of our Groundcare branches listed on the right.

SEE US AT BADMINTON

We are excited to be exhibiting again this year at the Mitsubishi Motors Badminton Horse Trials 2018, from 2-6 May (Stand 73). We'll also be supporting the Badminton operations team with Honda ATVs.

Do come and see us – we will have on display the latest range of Honda ATVs as well as Logic ATV and UTV attachments, plus the ever-popular Robomow robotic mowers.

Our ATV specialists Tim Rochfort and Simon Knight will be on hand to discuss your paddock care requirements and representatives from Honda, Logic and Robomow will also be with us.

This is a unique opportunity to see all the products together at the same time and we look forward to welcoming you onto our stand.

TRAILER CENTRE

TRAILER SERVICING NOW AT STOCKBRIDGE

T H WHITE's Trailer Centres in Reading and Frome have established an outstanding reputation for sales and service of Ifor Williams Trailers. Now, for the convenience of our customers in central southern England, we are offering trailer servicing and repair from our extensive new workshops near Stockbridge.

To ensure that your trailer remains safe on the road our trained technicians will carry out all servicing tasks on any type of trailer – Ifor Williams or other brands. Routine work will include attention to brakes, lights, electrics and couplings, while all kinds of repairs and replacement of wearing parts can also be undertaken.

A full service costs from just £65+VAT and parts! Book online at www.thwhitetrailercentre.co.uk.

ENERGY, FIRE & SECURITY

STAY COOL WITH T H WHITE!

Solar PV installations on the roofs of the main buildings at Marshfield Farm make a significant contribution to the energy requirements of ice cream production.

Marshfield Farm, near Pennsylvania north of Bath, has been producing some of the West Country's most scrumptious ice cream for 30 years. The farm has always been fully organic and is home to over 200 Friesian cows which produce a total of about 4,000 litres of milk a day – or 1.5 million litres per year – around two thirds of which is used to make the award-winning ice cream.

Hundreds of tubs in 30 flavours are produced each day and these are filled at -6 deg C, before being blast frozen to -25 deg C.

In line with the farm's sustainable approach, much of the energy required for the freezers is provided by a solar PV system – an ideal set-up as the power demand for refrigeration and the farm's peak production periods perfectly match the times when the sun is shining brightest! Since the system went live four years ago solar PV has made a significant contribution to managing the farm's energy costs.

Last year, however, and again in early 2018, our solar maintenance team was called in to rectify some problems with the inverter. The solar PV system had been installed by another business which is no longer trading and so we were delighted to be able to support Marshfield Ice Cream to get their solar generation back in action.

The works included replacement of a SolarMax inverter, which required sourcing from an overseas supplier – something that our team is experienced

in – and within a short time we were able to get the system generating again.

T H WHITE also carried out annual maintenance on the affected system and two other systems on site in line with manufacturers' recommendations to ensure continued operation and peace of mind for the generating year ahead.

In the last few years our solar maintenance team has attended a wide range of sites with cable issues, panel issues, even customers who turned out to have no connected panels or no connection to the grid. Our experience means we are well positioned to support

new clients with older systems, as well as our own clients, helping them keep their buildings greener and more efficient for generations.

If you are experiencing problems with a solar PV or biomass installation, or if your solar or biomass system needs servicing or cleaning, we would be delighted to help.

Marshfield Farm is one of the forward-looking businesses that has already made great progress in producing products with a low carbon footprint, and T H WHITE can help with this in a number of ways. For example, we are now offering electric vehicle chargepoints, not just to Tesla owners but also to anyone with a fully electric or hybrid electric vehicle.

For all enquiries, please contact us on 01380 726656, or just send an email to energy@thwhite.co.uk.

AGRICULTURE

RED POWER ON TOUR

The T H WHITE Pro-Agri team will be hosting a stage of the Case IH Red Power Tour on 26 April, giving you the opportunity to try the new Case IH Maxxum MC ActiveDrive 8.

The event will take place at Compton Manor Estate Ltd, Kings Somborne, Stockbridge, Hants SO20 6QW. We would be delighted if you could join us any time between 11am and 4pm on Thursday 26 April to experience not only the new Maxxum but the range of Case IH tractors. If you would like to attend please RSVP with your name and total number of guests by 19 April to 01373 468710, or email frome_reception@thwhite.co.uk.

GROUND CARE

MOST NIMBLE WESSEX MOWER

Wessex International – the UK maker of professional turf mowers – has responded to requests from users by introducing the new CRX-320 3.2m golf course and sports turf mower.

Featuring a 3.2m wide cut, the CRX-320 promises to be the most nimble and manoeuvrable Wessex mower to date. With a cutting height adjustable from 10 to 100mm and full width rollers, it delivers a ground-hugging precision cut and full width stripe on the turf.

The wide angle PTO makes tight turns easy and best of all only a 35hp tractor is required to operate the CRX-320. Also, only one spool valve is required, making the mower compatible with the simplest tractor.

The Wessex CRX 'Swing Tip' blades and simple belt tension make for easy maintenance while 5mm steel plate decks are robust and durable. The machine is covered by a three-year warranty.

Deliveries of the CRX-320 will begin in August, but T H WHITE will be able to offer demonstrations at our Groundcare branches from May, so make sure you book your demo if you want to see just what this remarkable new mower can do.

KEEPING YOU SAFE & SECURE

Access Control systems

From simple pinpad and swipe units to fingerprint biometric entry modules we can control access to any size of property, including those with restricted areas or secure rooms.

Intruder Alarms

From bells only to fully policed, monitored systems. We can install the right system tailored to you or your insurance company's requirements. Already have a system? T H WHITE can carry out your annual tests, with a friendly face and a service you can trust.

Fire Alarms

Business owner? Landlord? Health and safety manager? Our surveyors are fully accredited in system design and can work with you on any project to make sure you comply with the latest regulations.

Fire Extinguishers

We offer supply and maintenance of fire fighting equipment, together with honest and accurate advice to keep you safe and compliant with the latest regulations. We also offer safety signage and accessories such as cabinets, vehicle boxes and escape ladders.

CCTV & IP Cameras

For security, health and safety or machinery monitoring, we have the system for you. From fully HD conversions of existing systems to IP set ups we can future proof your CCTV installation. Coupled with our smart phone technologies you can monitor your system from anywhere in the world.

Electric Gates & Barriers

From bespoke domestic style electrical gates to commercial barriers and bollards. Physical security combined with security systems enhance the protection of sites and stop would-be intruders in their tracks.

MOTOR GROUP

AFFORDABLE STARS OF GENEVA SHOW

The Geneva International Motor Show is one of the foremost events in the motor industry calendar, traditionally hosting the launch of some of the world's most extreme supercars.

This year's event in March was no exception, with impressive launches from McLaren, Maserati, Aston Martin and many others. Rubbing shoulders with such rarefied names was Alfa Romeo – in fact the Alfa Romeo stand was right next to Ferrari, highly appropriate as many of Ferrari's advanced technologies have been carried over to the latest generation of Alfas to create stunning cars that non-millionaires can aspire to!

On the stand two special editions were attracting even more attention than the exotica next door – NRING editions of the Stelvio and Giulia. Finished in exclusive Circuito Grey paintwork, each was built to celebrate the fact that they are the fastest production SUV and four-door saloon to be recorded around the famous Nürburgring race circuit in Germany.

These specials are quite something. Based on the high performance

Quadrifoglio models, they are embellished with carbon detailing on the grille and door mirrors, black wheels, carbon ceramic brakes, and carbon-shelled Sparco sports seats.

Sensational as they are, these ultimate Alfas are unlikely to be the purchasing choice for most people, but new options for standard Stelvios were also revealed at Geneva, such as a Performance Pack which includes Alfa's adaptive suspension, aluminium paddle shifters and a locking rear differential.

Elsewhere on the stand new variants of the Alfa Romeo 4C sports car were unveiled, one of which was the 4C Italia special. Based on the 4C Spider, it is finished in Misano Blue paint with yellow brake calipers, plus new 'Spider Italia' decals behind the doors. An Akrapovic exhaust also features, as does yellow contrast stitching in the cabin and an Alpine premium audio system.

You can soak up some of the stardust from Geneva at T H WHITE's Fiat Group Brand Centre in Hillmead, Swindon where the Motor Group team will be happy to give you your personal motor show, with test drives available too.

Call in, phone us on 01793 393520, or visit www.motors.thwhite.co.uk to become part of this great brand, now great again.
