WADING TRACTOR FOR SEVERN RESCUE

In August, T H WHITE delivered a new tractor that took our Agricultural Division into new territory – the sea! The New Holland T5.105 was supplied to the Sharpness Lifeboat station of SARA, the Severn Area Rescue Association, which provides marine and land search and rescue services for Gloucestershire, Hereford & Worcester, and Gwent.

SARA operates three lifeboat stations at Beachley, Newport and Sharpness and is tasked by HM Coastguard to provide inshore lifeboat operations in and around the Severn Estuary, including the tidal lengths of the rivers Wye and Usk. In 2008 a new slipway was opened at Sharpness Lifeboat Station to enable fast launches using a tractor coupled to a launch 'cradle'. Since that time a faithful but ageing Ford tractor had been in use, but the time had come to replace it.

Every time the lifeboat is launched or retrieved the tractor is required to wade into several feet of water which, as the Severn is one of the most tidal

Top: The first 'live' launch for the new tractor on 24 August when the Sharpness lifeboat was called to assist a drifting vessel.

Above: Brand new and ready for work, the specially marinised New Holland T5.105 was unveiled at Sharpness Lifeboat Station's open day on 13 August.

Below (left to right): Hauling the lifeboat in its cradle back to the lifeboat station; the stripped-down tractor being marinised; Two of the Sharpness inshore lifeboats in action.

rivers in the world, is salt sea water. The corrosive effects of this had become very apparent on the old tractor, so one of the main challenges was to make the new tractor fully 'marinised'.

As a Gloucestershire New Holland Dealer, T H WHITE was chosen to carry out the work, which was undertaken at the Knockdown branch.

"We had never tackled a project like this before, but our team really relished the challenge," said Divisional Director Pat Smith. "The job involved a complete strip-down of the tractor. All components that could be galvanized were, the main transmission was spray-painted with specialist protective coatings, the air intake for the engine was raised and different coolers were fitted."

The new tractor was unveiled at the Sharpness Lifeboat Station open day on 13 August and it was soon in action, launching the Station's No. 2 lifeboat on 24 August to assist a drifting vessel.

You can find out more about SARA and the life-saving work it does at www.sara-rescue.org.uk.

MOTOR GROUP ALFA ROMEO RETURNS TO BTCC

Alfa Romeo is returning to the British Touring Car Championship (BTCC) for the first time since 2007, thanks to an alliance for the 2018 season between the T H WHITE Motor Group and Handy Motorsport.

The management team at T H WHITE's Fiat Group Brand Centre in Swindon has been working hard with Swindon-based Handy Motorsport – owned by former BTCC driver Simon Belcher – to bring off the deal which will see an Alfa Romeo Giulietta driven in the 2018 Championship by the team's hugely successful fan-favourite, Rob Austin.

A preview of what we can expect was given in mid-September when T H WHITE's Giulietta Veloce demonstrator, suitably 'wrapped' in team sponsor Duo's colours, was unveiled at Rockingham Circuit in Northamptonshire on 14 September for a photo call with Rob Austin, which was broadcast on ITV4. The Giulietta has since returned to Swindon where it was due to take centre stage in a special dealership event for all BTCC fans on 23 September, just as this issue of White's

World was going to press (more photos next month!).

Commenting on the news that an Alfa Romeo will return to the grid with Handy Motorsport, Alfa Romeo UK Dealer Council Representative and T H WHITE Dealer Principal Peter James said: "It's fantastic to see Alfa Romeo return to the BTCC, especially at such an exciting time for the brand. Alfa Romeo returning to the Championship has been driven by the desire of the Dealer Council to see the marque back on the grid."

Paul Doick, General Sales Manager at T H WHITE Swindon, added: "I have known Simon Belcher for many years and we have been working together to deliver this project. I am

confident now that this alliance with Handy Motorsport will show just what Alfa Romeo is capable of and continue to build the massive public interest in this brand which has such a proud motorsport history. There are very exciting times ahead...

We look forward to seeing the stunning finished Giulietta on the grid in 2018!

GROUND CARE SUPPORTING THE TRILBY TOUR

When the Trilby Tour – the only televised amateur golf tournament – arrived at Gaudet Luce Golf Club in Droitwich as part of a series of Regional Championships across the UK, T H WHITE provided additional equipment to supplement the club's existing Jacobsen machinery.

No less than three Eclipse 322 greens mowers, one GP400 ride-on mower for tees and surrounds, two TR-3 triplex cylinder mowers, two LF570 fairway mowers, a HR600 wide area rotary mower, two Smithco Tournament Ultra greens rollers, a Turfco Torrent blower, a Cushman Hauler Pro-X, and 12 E-Z-GO RXV golf cars were used to maintain the golf course's championship standard status during the tour.

Course Manager Andrew Laing expressed his appreciation for the support the club received in the lead up to the event: "We have had a relationship with T H WHITE for over 14 years now, and since changing our equipment to Jacobsen back in 2008, we've never looked back. The machinery is reliable, and the after-sales support is second to none."

T H WHITE's Simon Bingham said: "It has always been important to us to support our customers, both when they ask for it, and also when they don't! We pride ourselves on our customer service, and Andrew is a brilliant example of the relationship that we strive to achieve with everyone who walks through our door. The course looked fantastic as always, and we look forward to assisting in the same way for future tournaments at the club."

AGRICULTURE HARVEST PHOTO WINNER

The winner of our harvest photographic competition is Phillip Soper from Andover.

Phillip is an owner-driver contractor who helps out at T P Hayward in Tidcombe, near Burbage, Wiltshire. It was while working at Mr Hayward's farm this summer that Phillip took this stunning photo of the farm's New Holland CR Combine with the menacing, almost black clouds behind.

Phillip's prize is a New Holland driver's kit with overalls, a T H WHITE polo shirt, cap and flask – well done!

We love to see the superb pictures that can be taken during harvest and we hope to run a competition again next year.

KEEPING YOU SAFE & SECURE

Access Control systems

From simple pinpad and swipe units to fingerprint biometric entry modules we can control access to any size of property, including those with restricted areas or secure rooms.

Intruder Alarms

From bells only to fully policed, monitored systems. We can install the right system tailored to you or your insurance company's requirements. Already have a system? T H WHITE can carry out your annual tests, with a friendly face and a service you can trust.

Fire Alarms

Business owner? Landlord? Health and safety manager? Our surveyors are fully accredited in system design and can work with you on any project to make sure you comply with the latest regulations.

Fire Extinguishers

We offer supply and maintenance of fire fighting equipment, together with honest and accurate advice to keep you safe and compliant with the latest regulations. We also offer safety signage and accessories such as cabinets, vehicle boxes and escape ladders.

CCTV & IP Cameras

For security, health and safety or machinery monitoring, we have the system for you. From fully HD conversions of existing systems to IP set ups we can future proof your CCTV installation. Coupled with our smart phone technologies you can monitor your system from anywhere in the world.

Electric Gates & Barriers

From bespoke domestic style electrical gates to commercial barriers and bollards. Physical security combined with security systems enhance the protection of sites and stop would-be intruders in their tracks.

HIGH QUALITY CLEARANCE BARGAINS

On the opposite page is our usual monthly selection of some of the best used agricultural equipment on the market.

But on this page we present a selection of clearance items at bargain prices. These are products that may be ex-display, ex-demonstrators, or simply items that we have had in store for a longer period. As a result, some items may exhibit storage soiling, show signs of light use, or have minor paint damage, but without exception they are high quality

machines and implements, many of which are as good as new. Items which have been in longer term store may no longer be covered by the manufacturer's warranty, but before delivery they will be fully checked by T H WHITE technicians and will be warranted by T H WHITE.

For specific details of individual items, please contact your sales representative, or call one of the Sales Hotline numbers at the bottom of this page.

PREMIER BRANDS TO BE EXHIBITED AT SALTEX

New Ferris 400S

Saltex, the major exhibition for the UK groundcare industry (NEC, 1-2 November) will have two stands showcasing the premium brands now imported by T H WHITE Machinery Imports: Ferris, Wright, Spider and Jensen.

The main stand (Hall 6, H190) will host Ferris, Wright and Spider mowers. Visitors will be able to go hands-on with three Ferris ride-on mowers – the petrol 52in IS®2100Z, the new 61in diesel-powered IS®2600Z and top-of-the-range V-twin 72in IS®3200Z which combines power with dual, commercial Hydro-Gear® ZT-5400 Powertrain® transaxles for tough, durable performance. The all-new 400S light commercial zero turn mower features all the benefits of its larger brothers but with the price point to suit the light commercial market.

Wright Stander mowers – driven from a standing position – are extremely compact and allow the operator to shift weight instantly for changing terrain. A Wright Stander 32in will be displayed at Saltex together with the Stander i36in

and Sport i48in models which are unique in the market in offering the option of comfortable seating for longer jobs.

Spider remote-controlled slope mowers are perfect for use on steep, uneven or sometimes dangerous terrain. Saltex visitors will be able to see the original 18hp ILD01 and the powerful ILD02 models which can operate on slopes up to 55 degrees, as well as the compact Spider MINI. The latest machine in the Spider range is the 3RIDER which offers the choice of operation as a ride-on mower on slopes up to 15 degrees, or as a remote-controlled slope mower on steeper terrain.

Newest addition to the brands imported by T H WHITE is Jensen (Stand H202). These sturdy, high capacity woodchippers represent German engineering at its best. T H WHITE now also stocks Jensen parts in the UK and is rapidly developing a national dealer network.

WILD PLACE FOR PIONEER

In partnership with Honda UK, T H WHITE was delighted to be asked to deliver and install a brand new 2017 Honda two-and-four seat Pioneer UTV to the Wild Place Project in Bristol.

Opened by the Bristol Zoological Society in 2013, the Wild Place Project is a fun family attraction that provides outdoor adventure, play and learning, inspiring families to enjoy nature and wildlife in a wonderful environment.

Head of Operations Nigel Simpson and his team are responsible for animal welfare and site maintenance around the 130-acre site. They were thrilled to receive the new Honda which will help boost productivity and ease accessibility around the site. It will be invaluable to them for daily feeding and general trailer duties.

For details of Honda Pioneer please contact Tim Rochfort on 07973 911934, or Simon Knight on 07860 712963.

MACHINERY IMPORTS

STRONG SHOWING FOR JENSEN AT CONFOR

Bill Johnston (right) from Jensen UK poses with the go-anywhere tracked Jensen A540 Spider, together with Stuart Fry from T H WHITE Groundcare with the top-selling petrol-powered Jensen A530L.

The profile of the Jensen woodchipper brand continues to strengthen in the UK with the ongoing expansion of the dealer network and a growing presence at the UK's most important arboricultural and grounds management exhibitions.

Jensen has been making some of the world's finest woodchippers since 1884, embodying all the benefits of German engineering at its best, but it hasn't always been easy for British customers to get the support this prestige brand deserves. Now, all that has changed with the establishment of Jensen UK, which is delivering these outstanding chippers, parts and service through an expanding dealership network across the country.

In early September Jensen UK attended the Confor Woodland show at the Longleat Estate in Wiltshire. Despite dark skies and intermittent rain, the Jensen marquee attracted many enthusiastic Jensen users who were able to see and discuss the latest innovations. Sales of the versatile and economic A530L petrol model have been rising steadily through the year and it continued to generate interest on the stand, where Bill Johnston of Jensen UK was assisted by Stuart Fry, Matt Textor and Mark Carter from local dealer T H WHITE Groundcare.

Alongside the A530L on the stand at Confor was the incredible Jensen A540 Spider. A long-standing Jensen customer, Peter Thomas of Woodland and Countryside Management, is already using a tracked A540 Spider which has class-leading ground clearance. When he called at the stand, Peter described how effective the machine has been on a large scale clearance contract for a private estate in North Yorkshire where the terrain is challenging. His staff also appreciate the A540's industry-leading chipping capacity

– more than 18 cubic metres per hour.

Feedback from customers at the Confor Woodland show confirmed that recent efforts in appointing new dealers has been welcomed. The growing national network underlines Jensen UK's commitment to providing the very best 'all round package', including sales, parts and warranty support, all with a clear focus on assisting the end user.

The newest Jensen dealer, Andrew Symons based in Devon, has just completed its sales and workshop training. With the addition of Jensen woodchippers to their offering and the opening of a new depot in Crediton, Andrew Symons is building on its considerable groundcare expertise.

Customers will have another opportunity to see the latest machines from Jensen and meet the experts at Saltex, NEC, on 1 and 2 November.

AGRICULTURE

EXIT SIMON, ENTER CHRIS

We are sorry to confirm that Simon Pratt has given in to his desire to take a more active role with the chickens at home. We don't quite understand the attraction of the chicken shed but we wish him well!

For all of you who were bribed with eggs we apologise, but we are sure he will cut you a deal going forward. As one of the founding team at Stockbridge we thank Simon for his efforts and results, and true to form Simon has promised to be in contact and help where he can.

Chris Martin will be taking over from Simon. Chris joined us last year and has worked hard in the background and we know he is ready for the new challenge.

We wish both Chris and Simon every success in their new endeavours.

Chris's contact details are chris.martin@thwhite.co.uk, 07919 044389.
