## LORRY CRANES

# BRILLIANTLY SIMPLE: A CRANE TO GET THE JOB DONE

**Palfinger cranes have a justified reputation for quality, durability and reliability. The Austrian company makes cranes for a vast range of applications but has never designed a crane specifically to serve the needs of the UK builders merchants market – until now.**

Unveiled at the Commercial Vehicle Show at the NEC in late April, the Palfinger BM26 crane is the first in a series of new cranes for builders merchants. By taking a simple approach

and designing a crane that combines all the features needed for straightforward 'lift and place' tasks, Palfinger has created a strong, rugged design that

represents outstanding value and is ideal for the safe loading of heavy pallets, banded bricks, blocks or timber, sacks of sand and ballast, or concrete pipe sections and castings. In fact there is nothing you would normally find in a builders merchant yard that this crane can't handle.

The BM26 is designed

**T H WHITE GROUP**

**MACHINERY IMPORTS**

Bill Johnston (left), Business Manager of Jensen UK, with one of the long-standing Jensen dealers, Charles Walter of Arbrep Services Ltd.

**JENSEN CHIPPERS JOIN THE LINE-UP**

Jensen, 'the original wood chipper' has an enviable history of over 130 years of engineering and experience in developing market-leading wood chippers. The range is now being distributed exclusively by T H WHITE Machinery Imports throughout the UK.

Jensen has the widest wood chipper range on the market today, providing solutions for the high-end domestic client, ground care professionals, and for the commercial forestry and arboriculture industries across the UK.

Jensen chipper models are available tracked, trailed or tractor-mounted, solving issues with slopes, embankments or difficult terrain. For more challenging projects Jensen provide an innovative service of 'custom-build' solutions, often combining Palfinger Cranes or steel conveyor belts to make light work of the most demanding projects.

**FORDSON FAUX PAS**

In White's World 272 (March 2017) we used this splendid photo from our archive showing tractors at work during harvest 1926. In our enthusiasm for the centenary of the Fordson tractor we described this tractor as a Fordson, when it is not. We should have looked more carefully, so thanks to all who pointed out the error.

**LORRY CRANES**

**BUILDERS MERCHANTS CRANE**

Continued from front page

for 26t (GVW) trucks and has a maximum lifting capacity of 1,620kg at 8m and a slewing angle of 420deg. The boom features sophisticated geometry giving it the ability to work with heavy loads in confined spaces with a maximum stabiliser spread of 6.6m. It is not always necessary to deploy the stabilisers on both sides as stability is monitored by the HPSC-E electronic stability control system ensuring the crane always operates in complete safety.

A high speed boom extension makes for fast, efficient use, and all movements can either be controlled from the on-board control panel or the six function portable radio remote control unit.

Protected hose guidance and hose drum are fitted as standard and a hydraulic supply is carried through the boom for auxiliary equipment.

'Sophisticated geometry' enables the Palfinger BM26 builders merchants crane to operate safely with heavy loads in confined spaces.

Palfinger cranes are distributed in the UK by T H WHITE Lorry Cranes which also provides national after-sales service. At its headquarters in Devizes, Wiltshire, T H WHITE Lorry Cranes also operates a commercial body-building facility with a state-of-the-art paintshop. We offer a complete one-stop shop for conversion of a truck chassis into a fully-specified vehicle, fitted with your choice of crane and bodywork. There are no middle men, meaning that you benefit from the simplest, most cost-effective solution.

For full details of the Palfinger BM26 Builders Merchants crane, please visit our website [www.thwhitelorrycranes.co.uk](http://www.thwhitelorrycranes.co.uk), call us on 01380 722381, or email us at [lorrycranes@thwhite.co.uk](mailto:lorrycranes@thwhite.co.uk).

**USED MACHINERY APP LIVE!**

T H WHITE's new Used Machinery app is now available for free download in the App Store and will also be available shortly for Android devices.

For customers, the App provides a quick and easy overview of used machinery available from T H WHITE. We are starting with listings for Agriculture, and other areas such as Dairy and Construction will be rolled out over coming months. Within each category

it's easy to navigate to individual items and you then have the option of downloading more detailed information as a PDF or sharing the listing to other devices or colleagues. Once downloaded to your smartphone or tablet, the App allows you to continue with offline browsing even when you are remote from a

WiFi connection.

The integrated Trade-In Package allows T H WHITE salesmen to catalogue equipment directly on their tablets for trade-in while offline at the farm, taking pictures and uploading specifications for speedier sharing with customers. A Handover Package also allows sales representatives to create standardised

machine handover documentation, as well as cataloguing handover dates, customer signatures and times.

The new App is a great way to keep in touch with what's available at all times.

To download the iOS App just scan the QR code on this page (you will need a QR scanner on your iPhone or iPad, or go to <https://itunes.apple.com/us/app/t-h-white-machinery/id1151428988?ls=1&mt=8>.

The link for Android devices will be published in White's World shortly.

**FEEDING THE FOOD CHAIN**

For almost 40 years T H WHITE Projects has been providing bespoke solutions for the handling and storage of grain and other free-flowing materials for the food and drink industry. You will find us actively at work designing and constructing similar projects in the malting, brewing, distilling and processing industries too.

From steel-framed machinery buildings to silos, grain stores and port facilities, T H WHITE can undertake specialist design and installation of small or large units, or complete turnkey projects. We also fabricate all internal plant steelwork from hoppers to gantries, towers to trestles and more.

Talk to us to discover how we can bring ingenuity, efficiency and economy to your installation.

GROUND CARE

## LARGE SCALE RE-EQUIPPING SETS GORING & STREATLEY ON COURSE FOR SUCCESS

“Our objective is to be recognised as the golf club of choice in the Thames Valley area,” says Martin Hucklesby, general manager of Goring & Streatley Golf Club. After just two years in the job he has already made significant progress towards that aim at the 122 year-old club which has just re-equipped its greenkeeping team with an impressive new machinery line-up, spearheaded by the latest Jacobsen mowers.

Founded in 1895, the club rapidly established a loyal following and was enlarged with land purchases, undergoing a remodelling in 1922 under the guidance of revered designer Harry Colt. Today’s 18-hole course measures 6,355 yards and is glorified by its location in an area of outstanding natural beauty with magnificent views of the Ridgeway and the Thames winding its way from Oxford to Reading.

Course manager Matt Aplin, the man responsible for ensuring that the course always looks its best and offers maximum ‘playability’, explains why the decision was made to go for a major re-equipping: “Like many leisure activities golf has been under pressure since the financial crisis of 2008. People are now much more careful about how they spend their disposable income and in a competitive market you have to aim to be the best in order to attract new players. One way we can do that is by offering an outstanding course.

“We work hard to achieve that and as a result our equipment is used intensively

by the greenkeeping team. Last season we began to find that we were spending a lot on maintenance – our machines

were getting older and we had to question the economics of keeping them going versus re-equipping.

“We decided to look at the options for acquiring new machinery and invited four suppliers to tender. Our relationship with T H WHITE goes back over 25 years so we naturally included them in the process and I’m so glad we did! Their golf specialist Matt Textor worked extremely hard to put together the right lease/hire package for a complete range

of equipment including the Jacobsen mowers.

“Matt arranged a series of demonstrations and I have to say that the Jacobsen machines were as good or better than all others in every respect. In fact, in my opinion the Eclipse greens mower without doubt gives the best quality of cut on the market – bar none.”

After going through the club’s needs in detail and discussing the project with Matt Aplin and Martin Hucklesby, Matt proposed the following line-up, of which the club took delivery in early April:

- 3 x Jacobsen Greens King 522A hand mowers
- 2 x Jacobsen Mower Caddy trailer
- 3 x Jacobsen Eclipse 322 for Greens and Tee’s
- 1 x Jacobsen LF570 Fairway mower
- 1 x Jacobsen AR522 Contour mower
- 1 x Jacobsen Truckster XD
- 1 x Team Sprayer
- 1 x Turfco 1550 WideSpin Top Dresser
- 1 x Turfco Torrent Blower
- 1 x Smithco Tournament Ultra Greens Roller
- 3 x Cushman Hauler Pro 72 volt utility Vehicles
- 1 x Set of Jacobsen 15 blade bi-directional units
- 1 x GreenTek Dyna Corer
- 1 x GreenTek Thatch-Away Verticutter Unit
- 1 x Wessex 3 Ton tipping trailer

Just one 4 year-old AR522 mower and one strimmer which were still in good condition were retained from the old fleet.

“This is a win/win for the club,” said

Martin. “We now have a new and exceptional equipment fleet which is costing us less than before. Even better is the fact that we know exactly what the cost will be every year which makes budgeting easier. On top of that we know that in five years we can renew the entire fleet again under the terms of the deal.

“We are the only club in our area to drive standards by making this level of

Main picture: The complete line-up of new equipment at Goring & Streatley Golf Club. At the centre T H WHITE’s Matt Textor with general manager Martin Hucklesby, flanked by Steve Alabaster (Jacobsen) and course manager Matt Aplin. On the machines are members of the greenkeeping team.

investment and we are thrilled to partner with T H WHITE and Jacobsen on such a beneficial agreement which is great value for money. As well as acquiring the equipment, we also have a superb back-up service from T H WHITE and our

local representative Matt Textor.”

## KEEPING YOU SAFE & SECURE

### Access Control systems

Simple pinpad entry units to PC programmed swipe readers can control access on any size of property with restricted areas to secure goods rooms. There are simply no restrictions. 1 door to 1000, we have the system to suit.

### Intruder Alarms

From bells only to fully policed, monitored systems. We can install the right system tailored to you or your insurance company's requirements. Already have a system? T H WHITE can carry out your annual tests, with a friendly face and a service you can trust.

### Fire Alarms

Business owner? Landlord? Health and safety manager? Our surveyors are fully accredited in system design and can work with you on any project to make sure you comply with the latest regulations.

### Fire Extinguishers

We offer supply and maintenance of fire fighting equipment. Together with honest and accurate advice to keep you safe and compliant to the latest regulations. To add to this we offer safety signage and accessories such as cabinets, vehicle boxes and escape ladders.

### CCTV & IP Cameras

For security, health and safety or machinery monitoring, we have the system for you. From fully HD conversions of existing systems to IP set ups we can future proof your CCTV installation. Coupled with our smart phone technologies you can monitor your system from anywhere in the world.

### Electric Gates & Barriers

From bespoke domestic style electrical gates to commercial barriers and bollards. Physical security combined with security systems enhance the protection of sites and stop would-be intruders in their tracks.
