## **T H WHITE Group exits Motor Trade**

T H WHITE has sold its remaining Motor Group business and freehold site in Swindon to Johnsons Cars Ltd, one of the largest independent car dealerships in the country.

Johnsons Cars Ltd is a well-respected dealer operating from multiple sites. It has existing presence of Mazda and Volvo dealerships in Swindon and it also supplies vehicles produced by Abarth, Alfa Romeo, Fiat, Ford, Honda, Hyundai, Lexus, Mazda, Seat, Škoda, Toyota, Volvo and Volkswagen in other locations.

The decision to exit the motor trade sector follows the sale of T H WHITE's Wootton Bassett Land Rover business in 2015. The sale of the Fiat Chrysler Automobile (FCA) brand centre has resulted from a strategic decision which will see T H WHITE Group focus on its core machinery divisions, Projects division and Energy, Fire Security division.

T H WHITE's Motor Group team has built a strong reputation for customer service backed by FCA product quality. They continue to be celebrated by FCA UK as one of their best dealers in the country and Johnsons Cars welcome this commitment and professionalism to their workforce. The entire staff of the FCA Swindon branch have transferred to Johnsons Cars Ltd and will trade from Swindon with a wider brand folio. T H WHITE is confident that all members of the team will continue to do their utmost under the Johnsons umbrella to provide the service our motor customers have come to expect – we wish them all every success for the future and offer grateful thanks for their help in building up a great business.

T H WHITE would also like to thank its motor customers, many of whom have been loyal to the business since inception and hope that they will continue to support it in the future.

END

## About T H WHITE:

The **T H WHITE Group** is a family and staff owned company established in 1832. Businesses include agricultural machinery, dairy equipment, lorry cranes, professional groundcare and construction equipment, a trailer centre, country stores, energy, fire and security systems, and the design and installation of commercial and farm projects for dry goods handling and bulk storage. Since the business was founded in 1832, its purpose has been to help customers get the best from machinery, land, vehicles and buildings to secure livelihoods through the generations.
