THINGS ARE LOOKING UP

NEW HOLLAND T5 DYNAMIC COMMAND

The new star of livestock, dairy and mixed farming, the New Holland T5 Dynamic Command, made its debut at Agritechnica last year and is now available to order from T H WHITE.

Designed with loader work, manoeuvrability and comfort in mind, the T5DC is no slouch when it comes to power delivery either, being available in four models from 110hp to 140hp.

The ultra-quiet Horizon™ cab with its super high-visibility roof pane offers the best all-round view in its class – including the important view upwards which makes loader positioning so much easier. User comfort is enhanced by intuitive features such as the SideWinder™

Above: The T5 Dynamic Command's innovative super-visibility roof pane is ideal for loader work.

Below: Ergonomics in the ultra-quiet Horizon™ cab place all controls easily to hand and the SideWinder™ armrest adds comfort.

armrest, perfectly placed for operating all the key controls.

The powerful NEF four-cylinder, 4.5 litre engines have plenty of punch for high-PTO work, such as mowing, baling, light tillage and ground preparation and are calibrated to minimise fuel consumption while also meeting Stage V emissions standards. Efficiency is assured too with seamless shifting from the Dynamic Command 24x24 8-step transmission.

With a New Holland T5 Dynamic Command, there will be no looking back (unless you need to), but instead things will be looking up! For the full picture contact any of our branches or enquire online at www.thwhiteagriculture.co.uk/get-in-touch/

IMPORTANT
 Many of the shows or exhibitions that we normally attend have been postponed or cancelled. Please refer to the show websites for the latest information.

CORONAVIRUS UPDATE

We are certain that, like us, you have had quite enough of reading about the life-threatening coronavirus pandemic, but we just want to let you know how we may be able to help in these challenging times.

We are acutely aware of the devastating effect the virus is having on so many lives and livelihoods, and our heartfelt wishes go out to all friends, customers and their families who have been touched by it. We all hope for the easiest possible return to some form of normality when circumstances permit. If you are reading this you will be aware that this issue of White's World – and probably the next few also – is only being produced as a digital edition to reduce the strain on non-essential distribution whilst continuing to keep in touch with our community during lockdown. Although activity in some of our business sectors has come to a virtual standstill, it's more important than ever for the health of the nation that **Agriculture** and **Dairy** farming should continue as closely to normal as possible. To support our customers our **parts and service** departments are still operating, using

social distancing and collection points as appropriate. The same is true of the bulk storage and processing functions provided by our **Projects** division, while our **Groundcare** branches continue to offer parts as well as supporting essential work in grounds and grass maintenance where many dealers have closed their doors. **Machinery Imports** is maintaining its functions as a distributor.

Many of our staff are either working from home or coming in on a rota basis, but remain ready to deal with your enquiries. Our sales teams continue their support role in the field and, as the season begins, will attend upon request.

With strong support from our suppliers we have also been able to put together an amazing range of special offers and finance deals to help you through this period when it's more important than ever to get the most from all expenditure. You will find details in this issue of White's World.

Remember, when you need us we are still here – please do call. For specific working arrangements by business division of T H WHITE, please visit www.thwhite.co.uk/coronavirus

NEW GROUP SERVICE MANAGER FOR AGRICULTURE AND CONSTRUCTION

Simon Holmes has joined T H WHITE as Group Service Manager for

Agriculture and Construction, reporting to Operations Director Adrian Lovegrove. Based at Marlborough, Simon has worked with agricultural machinery ever since completing his education and brings more than 30 years of career experience to his new role.

Throughout his working life Simon has had strong links with the CNHi franchise, starting with a Leicestershire Case IH dealer in 1989, followed by more than a decade with New Holland dealer Platts Harris –

punctuated by a sabbatical in Australia where he worked on a number of farms, at one point being responsible for 1,000 sheep!

In 2002 Simon joined CNHi UK in Basildon providing training and technical support on harvester products. From 2012 he worked at the CNH combine plant in Belgium where he became Product Quality Specialist for New Holland rotary combines built at Zedelgem.

Off duty, Simon enjoys hill walking challenges, health and fitness and is learning to play the bass guitar. He has a keen interest in old farm machinery and is researching a book on New Holland combines.

FAST TEMPO FOR FULL POTENTIAL

Ever since Väderstad was founded in the 1960s the company's development has been directed at 'getting the best from your land' – a purpose shared by T H WHITE Group.

Today considered to be the market leader, Väderstad's edge comes from its focus on essential drilling and cultivation tasks, creating the optimal soil conditions to maximise yields. Build quality and versatility also sets Väderstad apart, delivering amazing efficiency and productivity.

Planting is a key part of the cycle and the latest range of **Tempo high speed planters** deliver unmatched precision at double the speed of traditional planters in no-till, min-till or conventional tillage. The crops gets the best start possible which results in an even emergence.

On traditional planters, the seed falls freely through the seed tube from the seed meter down to the soil. When vibrations arise as speed increases, the seed bounces in the seed tube and much of the precision of the seed meter is lost. This is where Tempo, with its pressurised seed meter, stands out from the crowd.

Thanks to the PowerShoot technology, which uses air pressure to maintain full control of the seed all the way down to the soil, gravity is removed from the equation so speed is not an issue for Tempo. This means that Tempo planters can achieve an unmatched planting precision in three dimensions – Length, depth, and width:

1. In-row precision – exact distance between each seed in the row.
2. Depth precision – exact depth of each seed.
3. End-of-row precision – individual row shut-off of the seed, fertiliser and micro granulate.

Top: Tempo TPF8 8-row planter.
Above: Tempo T6 mounted 6-row planter.
Below: Unmatched precision at high speed.

Equipped with hydraulic support wheels mounted between the row units, tilting in hilly conditions is avoided and the wide tyre profile maintains the working depth irrespective of soil type. Designed to fit most tractors, Tempo has a low hydraulic requirement, self-sufficient electric power and requires low draught force.

The Väderstad Tempo is available in models from four to 18 rows, meaning that there's one for every size of farm and application. A huge variety of crops can be accommodated too, including maize, sugar beet, soya beans, sunflower, oilseed rape and many more. The row spacing can be changed easily for different crops, while seed discs can be changed in a matter of seconds without tools. T H WHITE can supply the full range of Väderstad Tempo planters, but we have 6-row and 8-row models in stock, ready to go. Contact your Agricultural sales rep for full details.

Interest free finance available!

SPIDER X-LINER – HERITAGE HERO

Although heritage sites are closed during the lockdown, the grass hasn't stopped growing and some degree of maintenance must continue.

A case in point is Hampton Court Palace where the superb formal gardens are a credit to the grounds team. The extensive grassed areas include several manicured slopes which recently provided an opportunity for the new Spider X-Liner (pronounced Cross Liner) to demonstrate what it can do.

The X-Liner is the latest and smallest remote-controlled mower from Spider. With an integrated winch and ability to mow on slopes up to 55 degrees, the Cross Liner represents a unique

combination of high performance and user-friendliness – just like the other professional Spider mowers, but smaller.

At Hampton Court the X-Liner was equally at home on the slopes and flat areas, combing a 25.5in cutting width with extreme manoeuvrability. Skid-steering and a unique 4-wheel drive system allows it to turn around its vertical axis, eliminating the need to turn the mower manually.

The demonstration impressed those at Hampton Court. If you would like to see the X-Liner in action for yourself we can arrange a demo subject to the current precautions. Just call Bill Johnston on 07850 384530.

PLUS: 10% off any New Holland or Case IH fuel filter when purchasing any Exocet product, or 15% off a full set of filters.

AGRICULTURE

ULTIMATE DIESEL BUG UNBLOCKER

Diesel bug is not something you want to experience.

This brown/black slime looks rather like frogspawn and has a pungent, eggy odour. It can grow in diesel fuel tanks where water is also present due to wet conditions or air entering the tank and causing condensation. Before long, it will block your fuel filters.

The answer is to treat your fuel with Exocet Anti Bug Kill – 1-litre will treat 5,000 litres of fuel. Within 24-36 hours it will kill microbiological infestations, eliminating plugging of filters and gauges and maintaining combustion and emission quality.

Exocet Anti Bug Kill is in stock at all T H WHITE Agricultural parts stores at £46.50 + VAT.

AGRICULTURE

GO FOR A SIX-PACK OR MORE MUSCLE

T H WHITE PRO AGRI

If you order one of these muscular Case IH tractors before 30 June, you can get a lot more beef for the same buck.

Everybody knows that a six-pack is a desirable specification, and up to the end of June you can buy a 6-cylinder Maxxum 150 for the same price as an equivalent specification 4-cylinder Maxxum 145. Yep, that's two cylinders completely FREE!

With the Puma range you can unleash the beast and get more HP for the same price:

- Puma 165 Multicontroller for the same price as an equivalent specification Puma 150 MC.
 - Puma 165 CVX for the same price as an equivalent specification Puma 150 CVX.
 - Puma 240 CVX for the same price as an equivalent specification Puma 200 CVX.
- To be sure of getting your muscle pack from Case IH, talk to our Pro Agri sales team TODAY!

ENERGY, FIRE & SECURITY

NEW LEADER FOR ENERGY, FIRE & SECURITY

With immediate effect Ken Ash has been appointed the new Divisional leader of T H WHITE Energy, Fire & Security.

Ken Ash joined T H WHITE in Autumn 2017 as Operations Manager with over 36 years' experience in the Security and Electrical Industry. Ken's career started in 1984 working for GEC installing telephone exchanges for British Telecom, followed by period at Honeywell and the high security banking and financial services sector, working with leading UK banks including Lloyds, Midland and Nat West. Later he worked for ADT and progressed to Bristol Branch Manager in the early 1990s.

Acquisitions and mergers in the 1990s resulted in Ken moving to Initial Fire & Security where he worked at the Swindon, Bristol and Fareham branches, achieving NSI/BAFE fire accreditation for the Bristol operation. Ken progressed into the electrical compliance sector with a national company in 2012 running a successful and busy business, while also being the account manager for the UK's largest supermarket chain.

Since joining T H WHITE in 2017, Ken has enjoyed working within a strong and diverse engineering-based business with such a long stable history. Building on core competencies, the EFS team is now busy expanding the UK's network of EV charging points.

"Leading the T H WHITE Energy, Fire and Security Division will certainly be demanding," said Ken. "Technology is moving so rapidly in our sectors that there will be many exciting developments ahead."

In his spare time Ken likes to practice making a noise on his electric guitars and going to as many rock concerts he can fit in - which he's missing during the lockdown!

WE'LL MISS YOU AT BADMINTON...

Many shows at which we normally hope to meet our customers have been postponed or cancelled this year, including the Badminton Horse Trials.

We'll miss seeing you this year, but we have something special to make up for it - **0% finance on the entire New Holland Boomer tractor range.**

Whether you need to mow the lawn, top a paddock, dig a drain, cultivate the garden, clean a stable yard or install

a fence, Boomer tractors are for you. These tractors make it easy to change implements so you can move quickly from job to job, and come with a Category 1 three-point hitch, two hydraulic remotes as standard on models 30 - 50, varying electro-hydraulic rear PTO and optional ground drive PTO on larger models.

1+2 @ 0% finance is available for in-stock Boomers delivered by 30 June. Speak to your rep for full details.

PLUS, If you need something bigger...

1+4 @ 0% FINANCE

On New Holland T6, T7 and T8 tractors EXTENDED to 30 June!

LORRY CRANES

PALFINGER UK DIRECTOR NAMED ALLMI CHAIRMAN

Director of Palfinger UK, Alan Johnson, has recently been appointed as the new Chairman of the Lorry Loader trade association, ALLMI.

Alan has over 30 years' experience in the lorry loader industry and his involvement with ALLMI dates back to the late 1990s.

After leading a 'future direction' working group in the early 2000s, Johnson served as ALLMI Chairman between 2003 and 2006 before choosing to stand down. Since then, his commitment to ALLMI has remained constant, having retained his Board position to this day, including seven years employed as the Association's Technical Director between 2009 and 2016.

"I'm extremely honoured to be appointed to the Chairman's role," commented Alan. "I look forward to working with the Board and membership in order to expand ALLMI's reach and further strengthen its excellent reputation, always being focused on improving standards and promoting collaboration and shared learning throughout all parts of the lorry loader industry."

GROUND CARE

PERFORMANCE MEETS UTILITY

If you're looking for a high performing utility vehicle - perfect for hundreds of jobs around the farm or estate -, the Cushman 1600XD could be for you.

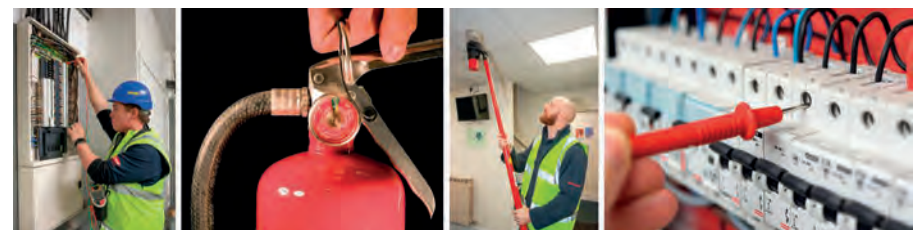

This 4x4 UTV comes with a 22hp diesel engine, rugged tyres, 4-wheel drive and 4-wheel independent suspension.

It can tackle tough terrain with ease, no matter what the task, it's a great solution for environments such as private estates, parks and gardens, showgrounds and arenas - even large construction sites.

The lighting system on the 1600XD is road-legal and the vehicle is homologated as a tractor, making it perfect not only for use around the site but also out on the road when needed.

For the ultimate in transporting people, tools and equipment, the Cushman comes with a 14.4 cubic feet steel cargo bed, full ROPS for safety, 3-point seatbelts, windshield and a spacious, ergonomic dash with plenty of storage for all the day-to-day essentials.

T H WHITE Groundcare are pleased to have Cushman 1600XD UTVs in stock and ready for delivery. At prices from £13,150 + VAT, it's a steal.

PROTECT YOUR PEOPLE AND PREMISES

SAVE 10%* ON YOUR CURRENT FIRE AND SECURITY COSTS BY SWITCHING TO T H WHITE.

We know that even with the best intentions it's not always easy to keep on top of maintenance, so T H WHITE has a great offer to address ALL your fire and security service needs, saving you money at the same time. **We are offering 10% OFF* existing annual fees from any other supplier for fire & security servicing contracts, including extinguishers.**

OR ADD A NEW TECHNOLOGY TO YOUR EXISTING SERVICE CONTRACT WITH US AND RECEIVE 10% OFF ANY EXTENSION.

If you already have a service contract with us and you add a new technology, we'll reduce the cost of that extension by 10%. So, if we currently service your alarm system, you could add fire equipment, or vice versa. Or, perhaps, add CCTV or door access...

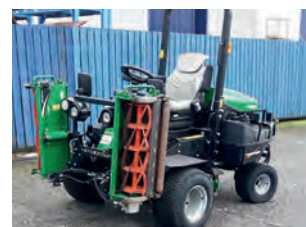

To find out how to claim your 10% discount call 01380 726656, email efs.thwhite.co.uk quoting 'Discount 10' or complete the online form at efs.thwhite.co.uk/contact

*Terms & conditions: To qualify customers will need to provide evidence of annual contract charges or 12 months of invoices from their current supplier. The discount offer is also open to existing T H WHITE customers taking on a new technology with us. For example, if we currently service your fire alarm and you wish to add CCTV or Door Access. We reserve the right to decline a service contract subject to survey.
